

Double Jersey Open Width Circular Knitting Machine

Following the gear design without unfolding the fabric, allows easy rolling up of cloth. Its safety shutdown device functions when the cloth is not cut completely.

- Top class fabric quality without any center crease over the entire fabric surface
- Less cutting waste when further processing fabric
- High production volume
- **Application Area:** sportswear and leisurewear

Main Features:

➤ **Cloth Cutting System**

Following the gear design without unfolding the fabric, allows easy rolling up of cloth. Its safety shutdown device functions when the cloth is not cut completely. The cloth collecting stick can roll up cloth automatically, to process cloth of diverse sizes, even those which are too small to strain. The cloth-cutting machine is equipped with a roller speed adjustment device, guaranteeing a uniform and stable knitting tightness for the fabric.

➤ **High-volume fabric output**

Combining the characteristics of double jersey and crease-free for cloths from knitting machines. High fabric output, equipped with a large diameter cylinder and high-speed motor; automatic cutting system to ensure unnecessary fabric loss.

Technical Data

Model	Cylinder Diameter	Machine Gauges	No. Of Feeders	Speed
DJOW	16"-44"	10-36G	32F-96F	15-25 RPM
